OVERVIEW

The Certificate III in Driving Operations is a fantastic opportunity for individuals looking for competitive roles in the transportation industry. The program covers a broad range of subjects to increase your understanding of industry regulations, safety protocols, fatigue management strategies, load security, advanced driving skills, and effective route planning.

This course provides an exceptional opportunity for participants to upgrade their knowledge and skills, and to gain a nationally recognised qualification for the skills they currently have.

With the constantly evolving industry standards, employers are on the lookout for candidates who are already trained and ready to hit the ground running.

Equip yourself with this comprehensive training to ensure you're a strong candidate and an asset to any potential employer.

User Choice

You may be eligible for User Choice funding if you meet all the following requirements:

- Are or become an apprentice or trainee;
- Have selected a training contract for a qualification funded by the government
- Have selected a government approved training provider (Strategix), for the selected qualification
